Former Bridgeport Resident Died in Washington D. C.

Lawrence Cuilen, a former resident of this city, died June 24 at his home in Washington, D. C., where he had resided for the last twenty years. Interment took place at Mt. Olivet cemetery. Mr. Cullen leaves to mourn his loss three sons, James, Charles and Joseph, and four daughters, Miss Mary, Annie, and Mrs. William Smith of Washington, D. C., and Mrs. John Greene of New Haven, also two brothers and two sisters, William of New York, and Henry, Maria and Hanna of this city.

The public is cordially invited to attend the annual commencement exercises of St. Joseph's parcehial school, on Wednesday evening, June 30, at Eagles' hall. Eight pupils will receive diplomas, and a program of musical and oratorical selections will be presented. The entertainment is to begin promptly at 8 o'clock. Not all of the graduates anticipate entering the High School, since a number of the members of the class have already been enroiled at a business college.

Arrangements are being made by Captain Paul Boyton, manager of Steeplechase Island, for a number of Steeplechase Island, for a number of Steeplechase dock on Stratford avenue, the city dock at the foot of Wall street, foot of Pembroke street, Yellow Mill bridge, and other points. No extra charge will be made for the launch service which has been planned for the benefit of those who prefer the water route to the island. A large launch is now running every day from the foot of Pembroke street. Announcement of the schedule of the launches will be made in a few days.

AGAIN HONORED

Francis M. Buckley Re-elected Principa of Ansonia High School.

DESERVED TRIBUTE

Mr. Francis M. Buckley, son of Mr. and Mrs. Daniel Buckley, of 162 Cottage street, has received a re-election from the Ansonia board of education to the superintendency of schools of that town. Mr. Buckley is a graduate of Holy Cross, 1906, and while in college was the editor of the monthly magazine, the Holy Cross Purple. He also proved a debater of ability, and For a year after graduation Mr. Buckley tught Greek and English in the St. Xavier's high school, New York city. A year ago he took charge of the schools of Ansonia, and his good work and re-election has called forth the following editorial from the Ansonia Sentinel:

The close of the school year in Ansonia is marked by the re-election of Superintendent F. M. Buckley to another year as official head of the schools. The vote of the school board was by acclamation and therefore is to be taken as a practical endorsement of his administration. His re-election, moreover, was expected, and will bring moreover, was expected, and will bring satisfaction to parents and teachers throughout the city. He has given the schools an even-tempered, quiet, unassuming and yet effective administration, and the year's work has gone on smoothly, without friction, and, we believe, with the usual degree of progress achieved. Mr. Buckley came here a year ago without having had any a year ago without having had any actual experience as a school super-intendent, and for that reason the work must have been fraught with more than usual difficulties so far as he was concerned; but with tactful-ness on his part and with a corps of ness on his part and with a corps of teachers that was accustomed in a large measure to the school require-ments of the city, and capable of carrying them out, the school routine has ing had a year in which to study the schools, the children which attend them and the idiosyncrasies of the teachers who work with him, Mr. teachers who work with him. Mr. Buckley should be in a position to give the city even better service during the coming year than he has in the past."

BRIDEGROOM'S SEARCH FOR A MISSING WIFE

Alfred E. Berraud, a bridegroom of a month's standing, has lost his wife and don't know where to find her. He made a fruitless search in Bridgeport, yesterday. Berraud was married in this city May 28, by Assistant Town Clerk Mullims, to Miss Josephine O'Connell, a young woman of the type usually described as "petite", whose hair was blonde and whose manner was ingratiating. The bride said that she was an orphan and under age. Therefore the consent of Mayor Lee was sought and procured.

Berraud says that he took his wife to Port Jefferson, L. I., and himself went to New Haven to close up some business. In his absence a man named Turner, who claimed to be the wife's father, came to Mrs. Berraud and they went away together. Berraud says that his wife has no father. He believes she is held in duress by Medical School, was elected Assistant yesterday. Berraud was married in

Dover, N. J., June 29.—When a few orders now in hand have been filled, the Morris County Machine and Iron Company's works here will be shut down indefinitely, owing to slack business conditions. Soon after the panic of 1907 the business of the concern fell off until within a short time it was operating at a loss. By agreement with the employes, with the exception of one department, a cut in wages was effected last February, but in spite of that the expenses of continuing business were greater than the income.

The company was organized fifty years ago, when it succeeded to the business of the late Mahlon Ford. Previous panics had been successfully weathered by the concern, all men being kept at work through the dull times of 1893 to 1896. It was the largest industry in Dover and employed hundreds of hands. Had the employes been willing to accept a further reduction in wages the shutdown could have been avoided. Stamford, June 29 .- The Rev. D. L. Meason, pastor of St. Mary's Roman Catholic church, stopped a runaway horse in Elm street last evening at the risk of his life. There were five or six little girls and boys in the wagon be-sides the driver. The shaft had be-come broken and the driver could not control the horse. The wagon swayed from side to side and the children were in great danger, for the horse was rup-ning fast. Father Gleason, sitting on the veran-da of his residence with his assistant,

da of his residence with his assistant, the Rev. A. F. Carrigan, saw the children's danger, and he ran out and caught the horse by the bridle. He was dragged 200 feet, but he clung to the reins and stopped the horse. Father Carrigan, who also had run to the assistance of the children, lifted them out of the wagon while Father Gleason held the horse. A sleeve was torn out of Father Gleason's cassock in his struggle.

Resolutions were adopted declaring that the Mayor had three times, over his signature, published a false statement that the retail merchants on the Citizens' committee are demanding Washington, June 29.—President Taft last night gave the first roof garden party in the history of the White House so far as is known. The heat of the last few days suggested the idea of dining outdoors, and the President arranged for an al fresco dinner on the top of the west wing of the Executive Mansion. All of the members of the Cabinet who are now in town, were invited, and a number of members of Congress and Diplomatic Corps were un-American method of boycotting cit-izens whose honest interests he has sworn to serve."

The Hungarian partridge, a few pairs of which were liberated in this State in April, are going to be prolific breeders. This is the opinion of County Game Warden W. F. Smith, based upon the nineteen eggs which were found in the nest of one of the birds yesterday. Charles Staples of South Norwalk, was going over a meadow with a mowing machine, when the blade cut the wing of the mother bird who was hovering the eggs already referred to. The bird was one of 16 pairs liberated within two miles of the field. This bird is partial to old mowing meadows, which the game warden thinks an unfortunate circumstance, as it makes the breeding places peculiarly subject to disturbance. The game warden believes that the birds will breed freely, despite this drawbar.

Origin of Dog Days. According to the generally accepted doctrine the dog days begin on July 3 and end on Aug. 11, but there have been disputes as to every possible point about them. It was universally agreed that they were connected with the dog star, but which one? The real dog star, Sirius, or Procyon, the Little Dog? Then there were disagreements as to the particular astrono cal performance of the star that fixed the dog days; as to their number, which varied in different estimates between thirty and fifty-four, and whether they were to be reakoned before. after or around the star's performances. The forty settled on precede the rising of Sirius with the sun. A belief grew up that in these days dogs went mad, but terrestrial dogs have really nothing to do with it. The original belief was that the star and sun together brought intense heat and all sorts of plagues.—London Chronicle,

Then, scrambling out, he lurched down the narrow, lark aisle toward the washroom at the rear. The place was already full of half-clad, red-eyed, touseled men. Some were washing, other painfully scaping lather from their faws with safety razors; still others ransacking bag or suit case for clean linen. One early bird had completed his toilet and was lounging in a leather-and-wicker chair, trying to translate a pink time table; meanwhile industriously filling the semi-airtight compartment with cigarette Cloth Dyed With Cobalt. Cloth changes color with a change of weather if it is dyed with chloride of cobalt. In clear weather it is a blue, when a change is near it turns to violet and for rain to bright pink. The change is due to moisture, and it can be produced by breathing upon the cloth. This property of cobalt salts has been applied to the construction of floral hygrometers. The petals of artificial flowers are tinted with cobalt salts and vary in color from blue to pink according to the weather. Their action is different from that of a barometer, which indicates a change of pressure of the atmosphere and is also usually behind the change of weather. The barometer indicates the cause of the storm, and the colored cloth shows

Clean Spectacles. Oculists will agree that many persons who wear spectacles, although the lenses may be perfectly adapted to the needs of the eye, suffer much inconvenience and possibly ultimate damage simply through not keeping their glasses clean.
